Item 8.01 Other Events.

Marathon Petroleum Corporation (the “Company”) is filing herewith a revised table (the “Revised Table”) to provide information on its sources of crude oil for each of the last three years. The Revised Table corrects a typographical error and supersedes and replaces the corresponding table included in the Company’s 2018 Annual Report on Form 10-K (the “2018 Form 10-K”) in order to correct the amounts reported for crude oil sourced from Canada and from the Middle East and other international locations in 2018. The Revised Table set forth below does not change any previously reported financial results of operations or any other disclosure contained in the 2018 Form 10-K.

Crude Oil Supply

We obtain the crude oil we refine through negotiated term contracts and purchases or exchanges on the spot market. Our term contracts generally have market-related pricing provisions. The following table provides information on our sources of crude oil for each of the last three years and includes production from the refineries acquired in the Andeavor acquisition from October 1, 2018 forward. The crude oil sourced outside of North America was acquired from various foreign national oil companies, production companies and trading companies.
